PRELIMINARY INFORMATION

RCDT Number:	090270050262004		
District Name:	Gibson City-Melvin-Sibley CUSD 5	School Name:	GCMS Elementary School
Superintendent:	Mr. Anthony Galindo	Principal:	Mr. Justin Kean
District Address:	217 E 17th St	School Address:	902 N Church St
City/State/Zip:	Gibson City, IL 60936 1072	City/State/Zip:	Gibson City, IL 60936 1075
District Telephone#:	Label 2177848296 Extn: 4003	School Telephone#:	2177844278 Extn: 1023
District Email:	agalindo@gcms.k12.il.us	School Email:	jkean@gcms.k12.il.us
Is this plan for a Title I School? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No			

Section I-A Data & Analysis - Report Card Data
Item 1 - 2011 AYP Report

Is this School making Adequate Yearly Progress (AYP)?	Yes	Has this School been identified for School Improvement according to the AYP specifications of the federal No Child Left Behind Act?	No
Is this School making AYP in Reading?	Yes	2011-12 Federal Improvement Status	
Is this School making AYP in Mathematics?	Yes	2011-12 State Improvement Status	

	Percentage Tested on State Tests				Percent Meeting/Exceeding Standards*						Other Indicators			
	Reading		Mathematics		Reading		Mathematics				Attendance Rate		Graduation Rate	
Student Groups	%	Met AYP	%	Met AYP	%	Safe** Harbor Target	Met AYP	%	Safe** Harbor Target	Met AYP	%	Met AYP	%	Met AYP
State AYP Minimum Target	95.0		95.0		85.0			85.0			91.0		82.0	
All	99.6	Yes	99.6	Yes	89.2		Yes	98.0		Yes	96.4	Yes

American Indian													
Two or More Races													
Native Hawaiian/Pacific Islander													
LEP													
Students with Disabilities													
Economically Disadvantaged	99.0	Yes	99.0	Yes	86.5		Yes	97.8		Yes			

Four Conditions Are Required For Making Adequate Yearly Progress(AYP)

1. At least 95% tested in reading and mathematics for every student group. If the current year participation rate is less than 95%, this condition may be met if the average of the current and preceding year rates is at least 95%, or if the average of the current and two preceding years is at least 95%. Only actual participation rates are printed. If the participation rate printed is less than 95% and yet this school makes AYP, it means that the 95% condition was met by averaging.
2. At least 85% meeting/exceeding standards in reading and mathematics for every group. For any group with less than 85% meeting/exceeding standards, a 95% confidence interval was applied. Subgroups may meet this condition through Safe Harbor provisions. ***
3. For schools not making AYP solely because the IEP group fails to have 85% meeting/exceeding standards, 14% may be added to this variable in accordance with the federal 2% flexibility provision.
4. At least 91% attendance rate for non-high schools and at least 82% graduation rate for high schools.

* Includes only students enrolled as of 05/01/2010.

** Safe Harbor Targets of 85% or above are not printed.

*** Subgroups with fewer than 45 students are not reported. Safe Harbor only applies to subgroups of 45 or more. In order for Safe Harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. For subgroups that do not meet their Safe Harbor Targets, a 75% confidence interval is

applied. Safe Harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

Note: Hyphens in the table indicate that data is not relevant for your plan.

Section I-A Data & Analysis - Report Card Data

Data - What do the School Report Card data tell you about student performance in your school? What areas of weakness are indicated by these data? What areas of strength are indicated?

Math

1. The ISAT "Meets and Exceeds" scores for math increased for grade 4 by .2%, from 98.7% to 98.9%. Grade 5 also had a slight increase of .7%, from 95.6% to 96.3%.
2. Grade 3 scores decreased by .9%, from 98.9% to 98%.
3. The "Economically Disadvantaged" subgroup for grade 3 made a large improvement of 3.5%, from 96.5% to 100%. Fourth grade made the same increase, raising the score the exact same amount. Only grade 5 saw a slight decrease, at .3%, from 93.6% to 93.3%.
4. The "IEP" subgroup at grade 4 was too small to report results. Grade 3 had a subgroup that reported scores of 90.9%. Grade 5 showed a decrease of 8.6%, with the scores moving from 81.3% to 72.7%.

Reading

1. The ISAT "Meets and Exceed" scores for reading increased in both grades 4 and 5. Grade 4 boasted a 6.1% increase, from 88.4% to 94.5%, while grade 5 saw an increase of 2.8%, bringing their scores from 84.7% to 87.5%. Grade 3 scores decreased from 89.8% to 86.5%, for a total loss of 3.3%.
2. The "Economically Disadvantaged" subgroups for all three grade levels increased from the 2010 scores. Grade 3 scores moved from 79.3% to 84.2% for an increase of 4.9%, grade 4 increased 6.9% from 86.2% to 93.1%, and grade 5 moved from 77.5% to 83.3% for an increase of 5.8%.
3. The "IEP" subgroup for grade 4 was too small to report scores. Grade 3 had an IEP subgroup for the first time since 2008, and had a score of 63.7%. Grade 5 had an increase of 4.4% for the subgroup, with the score moving from 50.5% to 54.5%.

Other Data

1. The attendance increased by .4% to 96.4%.
2. The mobility rate increased by 2.1% from 6.5% to 8.6%.
3. The truancy rate for the elementary school was at zero again for the 2010-2011 school year. This is the fourth year in a row for the zero truancy rate.

Areas of Strength**Math****Third Grade**

Measurement: Select and use appropriate standard units and tools to measure length, time, and temperature.

Geometry: Identify and describe 3-D shapes according to their characteristics.

Data, Analysis, and Statistics: Read and interpret data represented in a pictograph, bar graph, Venn Diagram, tally chart, or table.

Fourth Grade

Number Sense: Solve problems involving descriptions of numbers, including characteristics & relationships.

Geometry: Identify whether or not a figure has one or more lines of symmetry and sketch or identify all lines of symmetry.

Data, Analysis, and Statistics: Classify event using words such as: certain, most likely, equally likely, least likely, possible, and impossible.

Fifth Grade

Algebra: Construct and identify a rule that can generate the terms of a given sequence.

Geometry: Identify and describe 3-D shapes according to their characteristics.

Geometry: Identify and sketch acute, right, and obtuse angles.

Reading

Third Grade

Vocabulary Development: Determine the meaning of unknown words with in-sentence clues.

Reading Strategies: Use information in illustrations to help understand a reading passage.

Literary Elements: Determine character motivation.

Fourth Grade

Vocabulary Development: Use synonyms to define words.

Comprehension: Determine the answer to a literal or simple inference question regarding the meaning of a passage.

Literary Elements: Identify the following forms and genres: myth or legend, short story, folktale, nonfiction, and poem.

Fifth Grade

Comprehension: Determine the answer to a literal or simple inference question regarding the meaning of a passage.

Comprehension: Differentiate between fact and opinion.

Literary Elements: Identify the author's message or theme.

Areas of Weakness

Math

Third Grade

Number Sense: Model and apply basic multiplication facts and apply them to related multiples of ten.

Measurement: Determine the volume of a solid figure that shows cubic units.

Data Analysis & Statistics: Determine the mode given a set of data or a graph.

Fourth Grade

Number Sense: Model situations involving addition and subtraction of fractions with like denominators.

Number Sense: Make estimates appropriate to a given situation with whole numbers.

Data Analysis & Statistics: Determine the mode and range, given a set of data or a graph.

Fifth Grade

Number Sense: Order and compare decimals through hundredths.

Measurement: Solve problems involving the perimeter and area of a triangle, rectangle, or irregular shapes using diagrams, models, and grids or by measuring or using given formulas.

Measurement: Compare and estimate length including perimeter, area, volume, weight/mass, and angles.

Reading

Third Grade

Comprehension: Distinguish main idea and supporting details.

Comprehension: Differentiate between fact and opinion.

Comprehension: Identify author's purpose for writing fiction or nonfiction text.

Fourth Grade

Comprehension: Determine whether a set of complex instructions or procedures is complete and therefore clear.

Literary Elements: Differentiate among the literary elements of plot, character, setting, and theme.

Literary Elements: Determine what characters are like by what they say or do or by how the author or illustrator portrays them.

Fifth Grade

Comprehension: Display main idea and supporting details in any text.

Comprehension: Determine the author's purpose for writing a fiction or nonfiction text.

Literary Elements: Identify whether a given passage is narrative, persuasive, or expository.

Factors - What factors are likely to have contributed to these results? Consider both external and internal factors to the school.

- Differentiated instruction in the areas of math and reading in grades K-5 has had a positive effect on student achievement.
- The availability of resource teachers in math and reading has benefited students who need additional assistance.
- Co-teaching continues to have a positive affect both students and student achievement.
- The strong parental involvement at the elementary school could likely play a part in the low truancy rate and high attendance rate.
- Mentoring programs that are in place at the elementary school increase student success.
- Increased data analysis has proved to be valuable both within grade levels and as a student moves to the next grade, since accommodations are recorded from year to year.
- Vocabulary development and reading comprehension have been a focus across the curriculum.
- Rtl is a fluid process in the area of math and reading. Students in need of additional assistance are moving in and out of tier groups as needed throughout the year.

Conclusions - What do these factors imply for next steps in improvement planning? These conclusions will be carried forward to Part D (Key Factors).

- Differentiation continues to be a fluid process with clear evidence of student success.
- AimsWeb has been implemented for the 2011-2012 school year, and continued monitoring and evaluation as to the utilization and and success will occur.
- Frequent data analysis will continue at each grade level, and will involve resource teachers. Determinations as to students needing differentiation will occur at these meetings.
- Critical thinking skills will continue to be incorporated across the curriculum.
- Common Core Standards will begin to be implemented in an effort to reduce the student achievement gaps.
- Constant evaluation as to the best use of teacher aides for student success will be ongoing throughout the year.

Section I-B Data & Analysis - Local Assessment Data (Optional)

Data - Briefly describe the relevant local assessment data used in this plan. What do these data tell you? What areas of weakness are indicated by these data? What areas of strength are apparent?

- Teachers examined the assessment data from the ISAT testing to develop "Target Goals" in the areas of math and reading, in order to identify areas of strengths and weaknesses.

- Formative assessments such as MAP and DIBELS will be evaluated for best teaching practices to be implemented. DIBELS is administered in grades one and two, and the third, fourth and fifth grades were assessed three times a year using MAP testing in order to determine growth in the areas of math and reading.
- STAR tests for Accelerated Readers in Grades K-5 are given for reading data.
- A strong focus on math fact practice in each grade level and classroom is essential for student success.

Factors - What factors are likely to have contributed to these results? Consider both external and internal factors to the school.

- Continued focus in the areas of math and reading has helped to improve our scores.
- Co-teaching has proven to be very valuable in the RtI process.
- Tutoring and mentoring programs have helped assist individuals to improve in specific subjects areas.
- After-school homework program at the elementary school has helped the students to improve both skills and responsibility.
- Increased writing practice at all grade levels reflects the scores at the various levels.
- The reading specialist have been able to implement additional differentiation to help those with reading needs.
- Intervention teams are in place, and they utilize the data to target students who need assistance.
- Continued teacher training and awareness in the areas of assessment, RtI, Common Core, and co-teaching have benefited the students.
- The usage of curriculum-based assessment and technologically generated instruction has been an asset.
- Students are experiencing increased difficulty and rigor in the new math series and will also encounter this rigor with the new Common Core Standards, which lends itself to the new math core standards that will be covered in the elementary math program.
- Additional teacher involvement, peer encouragement, and peer mentoring have helped to involve additional students in the AR program. AR has also motivated students, due to its non-graded, non-threatening structure. Pizza Hut and Monicals certificates are used as incentives, as well as parties and prizes which vary by grade level.
- The math RtI program in grades K-5 has been beneficial in assisting students who require reteaching, but also targets those students who would benefit from math enrichment.
- The following factors have also been of assistance to the elementary program:
 1. Qualified teachers
 2. Special education teachers and paraprofessionals
 3. Title I/Intervention Specialists
 4. Co-teachers
 5. Volunteers- both high school students as well as certified adults
 6. Reading specialists
 7. Technology director
 8. Block scheduling for reading

9. Scheduling of classes and teachers
10. Weekly team collaboration time
11. **McCormick Tutoring Program:** Students are assisted by certified adults
12. The richness of the library inventory, especially with the increased focus on nonfiction books is a tremendous motivation to the students. Daily library accessibility is a tremendous motivation to the students. Daily library accessibility is a benefit, as well.

Conclusions - What do these factors imply for next steps in improvement planning? These conclusions will be carried forward to Part D (Key Factors).

- Both teachers and students would benefit from an organized data system that would house all data in one location. AIMSWeb has been piloted in the 2011-2012 school year, and its effectiveness will be evaluated.
- Data analysis continues to be vital in the RtI process.
- In the RtI process, both ends of the achievement spectrum need to be focused on and addressed in the areas of math and reading. That way, both the high achievers and those who struggle in their learning will be assisted.
- Second Step, a social emotional skill-building program will be utilized in the 2012-2013 school year. Students at specific grade levels will receive training on a weekly basis.
- The AR program will be continued, with additional emphasis on recognition of those who accomplish their goals each nine weeks.
- Continue to incorporate reading across the curriculum in the areas of science and social studies. Since the Core Curriculum focuses more on nonfiction, grades 3-5 will evaluate the best method to incorporate reading strategies into those subject areas.
- Local assessment data assists grade level and subject area teachers to make good decisions concerning lesson implementation and student assistance. These decisions can be based on data from various assessments, as well as input from team teachers, specialists, and interventionists.
- Students will benefit from frequent evaluations. The RtI process will be fluid, causing the targeted student groups to change.
- Parent involvement with communication and input is vital, and will continue to be an important component for student success.
- Peer tutoring has proven to be a very successful activity at the GCMS Elementary School. An increase in the opportunity for peer tutoring would benefit both the tutor, and the student who is being tutored.
- Updated computers in the classrooms would alleviate the need for extensive computer usage in the library. Students would have additional time to work on both AR quizzes and classroom projects with new and more time-efficient computers.
- A new computer lab has been included in the new elementary school addition and has been a tremendous asset for student achievement.
- With the success of the small groups that has been seen at the elementary school, it is important to continue and increase the small group settings and collaboration that is currently occurring among grade level teachers and students.
- An increase in informational books in the library, along with an increased focus on informational books at each grade level will continue to better prepare students for college and career readiness.
- Implementation of programs such as ATB Writing and Math T-Charts in grades 3, 4, and 5 will be used to continue improvement in the areas of math and writing.

- Math fact practice has been identified as an important component of finding success in math. So fact focus will continue at each grade level.

Section I-C Data & Analysis - Other Data (Optional)
Item 1 - Attributes and Challenges

Data - Briefly describe attributes and challenges of the school and community that have affected student performance. What do these data and/or information tell you?

- Community volunteers have been a welcomed assistance to our elementary school.
- Both homework and tutoring programs have been a benefit to at-risk students, as well as for students who desire additional assistance.
- High attendance rates have been a strong influence on achievement.
- Paraprofessionals work to supplement learning in needed areas.
- The elementary school has strong support in the areas of parent participation at conferences, volunteering, and attending school events. But not all students enjoy the parent support at home. This causes some students to lack parental input and backing concerning responsibility for their education.
- Parents will continue to be informed and updated concerning the RtI process. An RtI website for the elementary school is available for parents, as well.
- Classroom computer usage is very high, though depending on the classroom, there is a need for either additional or updated class computers.
- Increased teacher communication and collaboration concerning both students and curriculum has been a strong asset at each grade level.
- Teachers work to identify workshops that are available that will provide professional development in needed areas. These requests are presented to the principal.

Factors - In what ways, if any, have these attributes and challenges contributed to student performance results?

- Students have benefited from one-on-one assistance through homework and tutoring programs.
- Teacher communication and team teaching has improve student achievement.
- The utilization of RtI interventionists has made a dramatic difference in student achievement at the elementary level.
- The mentoring program has helped at-risk students.
- The age of classroom computers has made it difficult to encourage student use for projects and AR.
- Increased small group work tailored to the ability level of the students have been a great advantage for them.

- Students, especially at the upper grade levels, are now taking the time to check their grades on Lumen.

Conclusions - What do these factors imply for next steps in improvement planning? These conclusions will be carried forward to Part D (Key Factors).

- Grade levels and subject areas are able to make good decisions concerning lesson implementation and student assistance. These decisions can be based on data from various assessments, as well as input from team teachers, specialists, and interventionists.
- Students will benefit from frequent evaluations. The RtI process will be fluid, causing the targeted student groups to change.
- Parent involvement with communication and input has been beneficial.
- Peer tutoring has proved to be a very successful activity at the GCMS Elementary School. An increase in the occurrence of peer tutoring would benefit both the tutor and the student who is being tutored.
- Updated computers in the classrooms would alleviate the need for extensive computer usage in the library. Students would also have additional time to work on both AR quizzes and classroom projects with newer and more time-efficient computers.
- A new computer lab that has been included in the new elementary school addition is a tremendous asset for student achievement.
- With the success of the small groups that has been seen at the elementary school, it is important to continue and increase the small group settings and collaboration that is currently occurring among grade level teachers and students.

Section I-C Data & Analysis - Other Data (Optional)
Item 2 - Educator Qualifications, Staff Capacity, and Professional Development

Data - Briefly describe data on educator qualifications and data and/or information about staff capacity and professional development opportunities related to areas of weakness and strength. What do these data and information tell you?

The GCMS Elementary School professional development for the 2012/2013 school year will have several goals to accomplish. First, initial implementation of the Common Core Standards will take place, and it is imperative that teachers receive the necessary training. Therefore, the teachers will be offered five workshop days in order to develop their implementation plans for Common Core State Standards. This will also serve as a time to communicate district-wide to our teachers concerning the basic Common Core information.

Our educators are also dedicated to doing ongoing work in the area of data analysis and investigating subgroup achievement gaps. Technology will continue to be an area of focus at the elementary school. So inservices will reflect these areas of need.

The GCMS University will serve to communicate areas of curriculum importance to our new faculty. The program is a two-year commitment. Upon completion, the teacher will receive enough CPDUs to move from the initial to the standard certificate.

Factors - In what ways, if any, have educator qualifications, staff capacity, and professional development contributed to student performance results?

The GCMS Elementary School is fortunate to have grade level planning time once a week, in order for teachers to meet with the resource teachers to determine interventions, programs, and methods to improve student performance. As the programs are put into action, the results of the philosophy and implementation need to be documented and evaluated as the programs are put into action.

- The utilization of Rtl interventionists has made a dramatic difference in student achievement.
- Continued training, sharing of information, and communication of interventions would benefit the teachers and students.
- Team teaching continues to be a great assistance to the program.
- While budget constraints make it difficult to attend all of the professional development activities, the elementary staff does a good job communicating new techniques and interventions to other faculty.
- GCMS University provides a strong foundation for the development of the district's new teachers.

Conclusions - What do these factors imply for next steps in improvement planning? These conclusions will be carried forward to Part D (Key Factors).

- After determining through data analysis which students need additional assistance, differentiated instruction will be continued. This will be a fluid process whereas student evaluation will continue to determine those who need assistance.
- Data analysis will help to drive instruction, and will also determine the best educational practice for each student.
- Professional development will continue to center around improving student achievement and increasing teacher knowledge with technology especially in the areas of ActivBoard, PBS Digital Learning library, and other online teacher resources.
- Teachers will focus on Common Core Standards, and Illinois Learning Standards, where appropriate. Professional development from the ROE will be necessary in order to assist the teachers, especially at the lower level, in preparation to teach the rigors of the Common Core Standards.
- GCMS University will continue to train and assist teachers who are new to the district.

Section I-C Data & Analysis - Other Data (Optional)
Item 3 - Parent Involvement

Data - Briefly describe data on parent involvement. What do these data tell you?

For over ten years, the GCMS Elementary School has had a consistent parent participation rate of at least 99%. All grade levels strive for 100% parental contact. Parents regularly attend academic, fine arts and sporting events, open houses, and honors ceremonies. Teachers and administrators communicate frequently with parents through e-mail, Lumen Student Information System, Listserv websites, including parent Listserv, the school website, and the Global Connect phone system. Parents receive progress reports at the midterm of each nine weeks for any students who are earning a "D" or an "F" in a subject area, or for other classroom concerns. Some teachers send the progress reports home for all students. Lumen also affords the capability of teachers sending notes to parents via the system. It is also a regular occurrence for all grade level teachers to meet with individual students and/or parents. Finally, the parent advisory committee at the elementary school provides input directly to the principal, and will continue to be a great asset for feedback.

Factors - In what ways, if any, has parent involvement contributed to student performance results?

- Parent communication is a strong asset for our elementary school.
- Parent support has helped improve achievement.
- Parent access to Lumen has increased communication between parents, students, and staff in order to promote academic success.
- Technology has improved parent communication in multiple ways for our district.
- While parents receive the Parents' Guide to Illinois Learning Goals and Standards, most parents are not clear on the required learning expectations for each subject.
- Studies show that the more school events that the parent attends, the higher the success rate of student achievement. In turn, communication will also improve.
- Groups such as PTA receive informative presentations on topics such as Common Core State Standards.

Conclusions - What do these factors imply for next steps in improvement planning? These conclusions will be carried forward to Part D (Key Factors).

- Any changes or improvements that are made at the GCMS Elementary School are best accepted when those changes are communicated to the parents.
- The district's improved and increased communication methods will augment parent contact.
- Parent volunteers will continue to be invited to assist with elementary programs and events.
- Continue to communicate and inform parents and community members on Common Core State Standards.

Section I-D Data & Analysis - Key Factors

From the factor pages (I-A, I-B, and I-C), identify key factors that are within the school's capacity to change or control and which have contributed to low achievement. What conclusions about next steps have you reached from reviewing available data and information and about all the factors affecting student achievement?

- Continue data analysis and data organization with teacher collaboration. Increase utilization of AimsWeb.
- By evaluating test results, grade levels and subject areas are able to determine areas of strengths and weaknesses. Achievement gaps can be identified, and goals can be determined.
- RtI refinement on both ends of the achievement spectrum will continue, which will incorporate higher level thinking skill practice and small group activity.
- Find additional methods to reach and teach the students through differentiated instruction in order to better serve the students.
- The AR program will be an additional emphasis on student involvement, incentives, and recognition.
- Increasing parent involvement and achievement will be an asset to both students and teachers.
- Continue to increase teachers/ knowledge in the area of technology, especially concerning the Activboard, PBS Digital Library, etc.
- In order to assist students with basic social skill knowledge, the Behavior Modification Program will be implemented at grades 1 and 2 for the 2012-2013 school year.

Action Plan Objectives and Deficiencies

Objective Number	Title (click the link to edit any objective)	Deficiencies Addressed
1	The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.	

No deficiencies have been identified in the most recent AYP Report for your school

Section II-A Action Plan - Objectives

Objective 1

The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.

Objective 1 Description

- Teacher collaboration will occur in order to continue data analysis, data organization, and Common Core implementation.
- RtI refinements at both ends of the achievement spectrum, which will include small group activity.
- Second Step, the Social Emotional Skill Building Program, will be introduced at the lower grade levels.
- The AR program will be continued with additional emphasis on student involvement, incentives, and recognition.
- increasing parent involvement and student achievement will be an asset to both students and teachers.
- Evaluation of classroom computer needs would assist in the ease of individual student use and project completion within the classroom.
- Continue focus on reading across the curriculum in the areas of science and social studies in grades 3,4, and 5. Reading strategies as outlined by the Common Core State Standards will be the focus.

- Development and implementation of math common core standards will be a priority in the 2012-2013 school year.

No deficiencies have been identified from your most recent AYP Report.

Section II-B Action Plan - Strategies and Activities for Students

Objective 1 Title :

The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.

		TimeLine			Budget	
	Strategies and Activities	Start Date	End Date		Fund Source	Amount(\$)
1	Students will have access to AR and other reading programs to motivate reading. The programs will include optional incentives.	08/20/2012	06/05/2013	During School	Local Funds	
2	Students will participate in the Rtl process which will involve assessment, assistance, and enrichment in the areas of math and reading.	08/20/2012	06/05/2013	During School	Local Funds	
3	Second Step Social and Emotional Skill Building Program for grades K-2 will be implemented.	08/20/2012	06/05/2013	During School	Local Funds	
4	Students will have increased opportunities to either be a peer tutor, or receive the services of a peer tutor. This program occurs across the grade levels.	08/20/2012	06/05/2013	During School	Local Funds	
5	Students will be able to understand the importance of local and state assessments through information, incentives, and recognition of achievements that will occur during presentations and assemblies.	08/20/2012	06/05/2013	During School	Local Funds	
6	The students will get the opportunity to experience additional small groups and other classroom settings in order to improve achievement.	08/20/2012	06/05/2013	During School	Local Funds	

7	Update classroom technology and increase computer availability in all classrooms for individual student work and research.	08/20/2012	06/05/2013	During School	Local Funds	
8	Students will benefit from the availability of student tutors from the high school, as well as the McCormick Tutoring Program or the after school homework program.	08/20/2012	06/05/2013	During School	Local Funds	
9	The Big Brother-Big Sister Program will offer mentoring to at-risk students.	08/20/2012	06/05/2013	During School	Other	
10	The principal and assistant principal will encourage each student who takes the ISAT to work to the best of their ability. This will be done both through a school assembly as well as individual principal/student meetings.	08/20/2012	06/05/2013	During School	Local Funds	
11	The students will make math facts a priority of study at each grade level.	08/20/2012	06/05/2013	During School	Local Funds	
12	The third grade will benefit from Third Grade Reading Night books, which are sponsored by the Rotary. The reading specialists will provide nights of parent and student activities in order to promote reading.	08/20/2012	06/05/2013	After School	Other	
13	The fourth and fifth grade students will enjoy "late reading nights", which will promote grade level cohesiveness and provide a learning environment that is fun and different.	08/20/2012	06/05/2013	After School	Other	
14	The CARE Program at the Gibson City Annex gives the students the opportunity to share with nursing home residents, and also gain appreciation of the older generation.	08/20/2012	06/05/2013	During School	Local Funds	
15	Students will learn the importance of community connection by creating projects to display at local businesses. Some grade levels will also tour local facilities in order to see the value of our community.	08/20/2012	06/05/2013	During School	Local Funds	

Section II-C Action Plan - Professional Development Strategies and Activities

Objective 1 Title :

The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.

		TimeLine			Budget	
	Strategies and Activities	Start Date	End Date		Fund Source	Amount(\$)
1	Teachers will analyze data on a regular basis throughout the year. The data will be stored in a central online location.	08/20/2012	06/05/2013	During School	Local Funds	
2	Teachers will work to increase Rtl enrichment opportunities for their students.	08/20/2012	06/05/2013	During School	Local Funds	
3	Additional small group activities will be developed, and classroom teachers will collaborate to divide the students according to need and activity.	08/20/2012	06/05/2013	During School	Local Funds	
4	Teachers will continue to collaborate through co-teaching and team meetings in order to best serve the students. Common Core topics will be part of those conversations.	08/20/2012	06/05/2013	During School	Local Funds	
5	Opportunities to share ideas and lesson plans through such activities as "in-house open house" in order to implement Common Core, within the grade level, across grade levels, as well as across the district.	08/20/2012	06/05/2013	During School	Local Funds	
6	Co-teaching, learning stations, and technology will continue to be areas of focus.	08/20/2012	06/05/2013	During School	Local Funds	
7	Each class will utilize a math facts program throughout the year.	08/20/2012	06/05/2013	During School	Local Funds	
8	Continue to develop math Rtl at each grade level in order to best serve each student's needs.	08/20/2012	06/05/2013	During School	Local Funds	
9	Professional development will be provided for faculty in the Common Core area for implementation through collaboration.	08/20/2012	06/05/2013	During School	Local Funds	
10	Teachers will continue to receive professional development in order to gain continued knowledge of the Common Core process.	08/20/2012	06/05/2013	During School	Local Funds	

Section II-D Action Plan - Parent Involvement Strategies and Activities

Objective 1 Title :

The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.

		TimeLine			Budget	
	Strategies and Activities	Start Date	End Date		Fund Source	Amount(\$)
1	The elementary school will work to increase the number of parent and community volunteers.	08/20/2012	06/05/2013	After School	Local Funds	
2	There will be increased opportunities to sign up for volunteering at the elementary school. Communication will be sent through the GCMS homepage, Listserv, the Gibson City Courier, WGCY, the GCMS Survey Volunteer form, and special sign-up sheet that will be available at the elementary school registration.	08/20/2012	06/05/2013	After School	Local Funds	
3	A parent advisory committee will be developed for the 2012-2013 school year through parent invitation.	08/20/2012	06/05/2013	After School	Local Funds	
4	Continue communication, focusing on additional online methods in order to save on costs and perhaps reach both parents and community members.	08/20/2012	06/05/2013	After School	Local Funds	
5	Continue the lunch connect program that invites parents to have lunch with their child and to participate in class activities.	08/20/2012	06/05/2013	During School	Local Funds	
6	Third grade family night provides an opportunity for parents and children to come three nights a year to do activities pertaining to reading a book donated by the Rotary, in order to support reading.	08/20/2012	06/05/2013	After School	Other	
7	Grandparent lunches and/or visits for grades K-5 will allow them to experience the elementary school classrooms.	08/20/2012	06/05/2013	During School	Local Funds	
8	Communication concerning Common Core State Standards as well as student progress will be increased through various avenues.	08/20/2012	06/05/2013	During School	Local Funds	
9	Parents could assist the elementary school by promoting and displaying student work within the community.	08/20/2012	06/05/2013	During School	Local Funds	
10	Parents will be invited to assist in the fourth and fifth grade late nights.	08/20/2012	06/05/2013	After School	Local Funds	

11	The elementary school staff will work to promote, support, and improve participation in PTA.	08/20/2012	06/05/2013	After School	Local Funds	
----	--	------------	------------	--------------	-------------	--

Section II-E Action Plan - Monitoring

Objective 1 Title :

The GCMS Elementary School will continue to improve math and reading scores through the implementation of Common Core State Standards.

Monitoring - Include the process for monitoring the effectiveness of the strategies and activities for the objective and identify the person(s) responsible for overseeing the work. Describe the process and measures of success of this objective. (How will school personnel monitor the effectiveness of the strategies and activities?)

The GCMS Elementary Principal meets regularly via faculty meetings, grade level planning meetings, RtI team meetings, SIP meetings and IEP meetings to discuss building and student needs and goals. Plans for professional development through in-services and workshops are discussed. While there is much teamwork to insure the implementation of the plan, ultimately the GCMS Elementary Principal and GCMS Superintendent takes responsibility for overseeing the SIP.

Designate the name and role of the person(s) (e.g., Karen Smith, assistant principal) overseeing the strategies and activities in the action plan to achieve each objective.

	Name	Title
1	Justin Kean	GCMS Elementary Principal
2	Gene Everett	GCMS Elementary Assistant Principal
3	Linda Schmitt	GCMS Elementary School Social Worker
4	Anthony Galindo	GCMS Superintendent

Section III - Development, Review and Implementation

Part A. Parent Notification*

This section describes how the plan has been developed and reviewed and identifies the support in place to ensure implementation.

Parent Notification - Describe how the school has provided written notice about the school's academic status identification to parents of each student in a format and, to the extent practicable, in a language that the parents can understand. *(*Requirement for Title I Schools only.)*

- The GCMS website has a link that includes all school report cards, as well as the building and district school improvement plans.
- The Gibson Courier and WGCY both report the AYP and other school information to the community.
- The following provide other opportunities for parent communication:
 1. E-mail Listserve for notification of elementary school events and notices
 2. E-mail, phone, and U.S. mail correspondence
 3. Class and school newsletters
 4. Lumen: online grading notification system
 5. Global Connect automated telephone system
 6. Parent nights and parent lunches, such as Lunch Connect
 7. Parent-teacher conferences
 8. Midterm grades, quarterly progress reports, report cards
 9. Teacher websites
 10. Communication notebooks for grades K-1, assignments books for grades 3-5
 11. PTA
 12. GCMS Elementary School Open House
 13. Third Grade Reading Night- promoting reading with three parent/student nights

Section III - Development, Review and Implementation

Part B. Stakeholder Involvement

Stakeholder Involvement - Describe specifically how stakeholders (including parents, school staff, and outside experts) have been consulted in the development of the plan. The names and titles of the school improvement team or plan developers must be identified here.

1. April 2012: Teacher representatives met to review the 2011-2012 assessment strengths and weaknesses in order to determine goals for the coming school year. These teachers represented each grade level and special areas so that all groups were represented. Both internal and external factors for progress and improvements were discussed.
2. June 2012 The GCMS Board of Education was presented with all of the school and district improvement plans. Goals and procedures were explained in detail.
3. September 2012: The GCMS Elementary school SIP will be presented at the GCMS Curriculum Coordinating Committee. This is an opportunity to communicate the goals and procedures to teachers representatives from other buildings as well as student and parent representatives.
4. September 2012-May 2013: The elementary faculty and staff will implement and review the SIP throughout the year.
5. April 2013: SIP team will meet to evaluate the plan, determine what steps succeeded and what did not. Goals will then be set for the coming year.

	Name	Title
1	Justin Kean	GCMS Elementary Principal
2	Gene Everett	GCMS Elementary Assistant Principal
3	Stephanie Kallal	Kindergarten Teacher
4	Cindy Petersen	First Grade Teacher
5	Laurie Sperry	Second Grade Teacher
6	Jordan Kerber	Third Grade Teacher
7	Karen Fairley	Fourth Grade Teacher
8	Shawna Pondel	Fifth Grade Teacher
9	Cortney Troyer	Special Areas Teacher
10	Sharon Pool	GCMS Director of Student Services

Section III - Development, Review and Implementation

Part C. Peer Review Process

Peer Review - Describe the district's peer review and approval process. Peer review teams should include teachers and administrators from schools and districts similar to the one in improvement, but significantly more successful in meeting the learning needs of their students. As appropriate, peer reviewers may be teachers from other schools, personnel from other districts, Regional Office of Education staff, Intermediate Service Center staff, RESPRO staff, university faculty, consultants, et al., or combinations thereof. RESPRO staff serving on a School Support Team should not serve on a peer review team in the same district. The peer review should precede the local board approval and must be completed within 45 days of receiving the school improvement plan. For further description of the peer review process see LEA and School Improvement: Non-Regulatory Guidance, July 21, 2006, at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

Description of peer review process including participants and date(s) of peer review.

Section III - Development, Review and Implementation

Part D. Teacher Mentoring Process

Teacher Mentoring Process - Describe the teacher mentoring program. Mentoring programs pair novice teachers with more experienced professionals who serve as role models and provide practical support and encouragement. Schools have complete discretion in deciding what else the teacher mentoring program should provide.

GCMS University is a mentoring program for new teachers that was first implemented in 2004. Gene Everett, the Induction Coordinator, is an integral part of the successful program. He coordinates the training and in-service events for the new teachers. Gene helps to promote a working relationship between the inductees and the mentors. He also meets and talks with the new teachers several times throughout the year. Gene has helped these new teachers by hosting socials at his home, as well.

Veteran teachers are paired with a new teacher in order to assist, coach, support, and encourage the teachers throughout the two-year program. The program begins with a three-day training session before the school year starts. During this time, the new employees are provided with district background information, an explanation of district policies, time lines for filling out employment paperwork, curriculum information, and also a tour of the school buildings and towns in the GCMS School District #5. During the school year, three "new teacher: half-day in-services are also provided. These meetings cover discussions on: classroom management, curriculum, assessment, building policies, and other areas. It also provides a time for new teachers to share their questions and concerns.

The mentee is observed three times during the year by his/her mentor and also receives two teacher observations. Then, reflective writings are required throughout the year, which encourages self evaluation.

For the new teacher, it is very valuable to have both a mentor and a coordinator to be able to bring questions and concerns to. Also, the GCMS Director of Student Services

meets individually with each new teacher one time a quarter. This gives the new teacher an opportunity to discuss curriculum and assessment questions with her, as well.

The GCMS University is recognized by the ISBE as a credible program that satisfies the criteria for Continued Professional development Units (CPDUs). This enables the new teachers to move from an initial teaching certificate to a standard certificate after completing four years of teaching.

The GCMS Superintendent and the GCMS Board of Education show great support for the district mentoring program by funding and implementing it since 2004.

Section III - Development, Review and Implementation Part E. District Responsibilities

District Responsibilities - Specify the services and resources that the district has provided to revise the plan and other services that the district will provide toward implementation of strategies and activities. District technical assistance should include data analysis, identification of the school's challenges in implementing professional development requirements, the resulting need-related technical assistance and professional development to effect changes in instruction, and analysis and revision of the school's budget (NCLB, Section 1116). If applicable, identify corrective actions or restructuring options taken by the district.

The GCMS District #5 provides budgets for staff development but at the district and school level. Staff is often encourage to take advantage of staff development opportunities that reflect the year's SIP goals. As our budget becomes tighter, it is more difficult to provide different professional development for each building. We find that we now have to share speakers, both among buildings, as well as with another school district. The district continues to provide time and funding for the following:

1. Weekly grade level meetings and Rtl meetings
2. Staff development- both internal and external
3. Out-of-district conferences and workshops (These will continue to be limited for the 2012-2013 school year.)
4. School improvement teams, which address and plan improvement goals for the coming year.
5. Substitute teachers, in order to allow classroom teachers to attend the various events

Corrective Actions taken by a district for a Title I school that failed to meet Adequate Yearly Progress for a fourth annual calculation (Corrective Action Status) should be aligned with the strategies and activities of this plan. The district must take one or more of the following actions in such a school per NCLB, Section 1116(b)(7)(C)(iv). (Check all that apply.)

- ☐ Require implementation of a new research-based curriculum of instructional program;
- ☐ Extension of the school year or school day;
- ☐ Replacement of staff members relevant to the school's low performance;
- ☐ Significant decrease in management authority at the school level;
- ☐ Replacement of the principal;
- ☐ Restructuring the internal organization of the school;
- ☐ Appointment of an outside expert to advise the school.

Restructuring Options (allowed in Illinois) selected by a district for a Title I school that failed to meet Adequate Yearly Progress for a fifth annual calculation (Restructuring Status) should be aligned with the strategies and activities of this plan. The district must take one or more of the following options in such a school. (Please check all that apply.)

- ☐ Reopening the school as a public charter school, consistent with Article 27A of the School Code (105 ILCS 5/Art. 27A.);
- ☐ Replacing all or most of the school staff, which may include the principal, who are relevant to the school's inability to make AYP;
- ☐ Entering into a contract with a private entity, such as a private management company, with a demonstrated record of effectiveness, to operate the school as a public school;
- ☐ Implementing any other major restructuring of the school's governance that makes fundamental reform in:
 - ☐ governance and management, and/or
 - ☐ financing and material resources, and/or
 - ☐ staffing.

Section III - Development, Review and Implementation
Part F. State Responsibilities

State Responsibilities - Specify the services and resources that ISBE, RESPROS, and other service providers have provided the school during the development and review of this plan and other services that will be provided during the implementation of the plan. ISBE shall provide technical assistance to the school if district fails to do so.

The Champaign-Ford County ROE will offer workshops on data analysis in order to to assist in targeting students with needs, and ultimately raising student achievement.

The elementary school will identify any state resource that best benefits the needs of the school and will solicit their assistance. The difficulty lies in the fact that while many of our programs are much-needed for student achievement, the state government funding for a school with our demographics and needs is very limited.

	Name	Title
1		

Section IV-A Local Board Action

DATE APPROVED by Local Board: 06/14/2012

A. ASSURANCES

1. The district has provided written notice in a timely manner about the improvement identification to parents of each student enrolled in the school, in a format and, to the extent practicable, in a language that the parents can understand (NCLB, Section 1116(c)(6)).
2. Strategies and activities have been founded in scientifically based research as required by NCLB, Section 1116(b)(3)(A)(i) and as defined in NCLB, Section 9101(37).
3. Technical assistance provided by the district serving the school is founded on scientifically based research (NCLB, Section 1116(b)(4)(C)) as defined in NCLB, Section 9101(37).
4. The plan includes strategies and activities that support the implementation of the Illinois Learning Standards and ensures alignment of curriculum, instruction, and assessments with the Illinois Learning Standards.
5. The school will spend at least 10 percent of the funds made available under Section 1113 of NCLB for the purpose of providing teachers and the principal high-quality professional development. (Title I schools only.)

B.SUPERINTENDENT'S CERTIFICATION

By submitting the plan on behalf of the school the district superintendent certifies to ISBE that all the assurances and information provided in the plan are true and correct and that the improvement plan has been duly approved by the local school board. By sending e-mail notification of the plan completion from the **Submit Your Plan** page (Section IV-C) the plan shall be deemed to be executed by the superintendent on behalf of the school.

Section IV-B ISBE Monitoring

PART I - SECTIONS I and II OF THE PLAN

ANALYSIS OF DATA

☐ Yes ☐ No

Have the areas of low achievement been clearly identified? [C]

☐ Yes ☐ No

Does the SIP include analysis of report card data that sufficiently clarify the areas of weakness? [C]

☐ Yes ☐ No

Is it clear that the areas of weakness are broad or narrow and whether they affect many or few students? [C]

☐ Yes ☐ No

Does the analysis, along with other optional data, provide clear direction for the selection of the objectives, strategies, and activities? [C]

LOCAL ASSESSMENT DATA (OPTIONAL)

☐ Yes ☐ No ☐ N/A

If included, is there evidence that the SIP team analyzed optional data to clarify the areas of weakness?

☐ Yes ☐ No ☐ N/A

Do these local assessment results add clarity to the state assessment data?

☐ Yes ☐ No ☐ N/A

Does the analysis, along with the other data, provide clear direction for the selection of the objectives, strategies, and activities?

OTHER DATA (OPTIONAL)

☐ Yes ☐ No ☐ N/A

If included, has the SIP team analyzed other available data to clarify the areas of weakness in order to target improvement strategies and activities?

☐ Yes ☐ No ☐ N/A

Do the other data add clarity to the state assessment data?

☐ Yes ☐ No ☐ N/A

Does the analysis, along with the other data, provide clear direction for the selection of the objectives, strategies, and activities?

IDENTIFICATION OF KEY FACTORS☐ Yes ☐ No

Have data or research been used to determine the key factors believed to cause low performance? [C]

☐ Yes ☐ No

Are the key factors within the district's capacity to change or control? [C]

CLARITY OF OBJECTIVES☐ Yes ☐ NoHas the SIP team stated measurable objectives that clarify the present areas needed for improvement for the two years of the plan? [C]☐ Yes ☐ No ☐ N/A

Do the objectives address all areas of AYP deficiency? [C]

ALIGNMENT OF STRATEGIES AND ACTIVITIES☐ Yes ☐ No

Is there a clear relationship between the key factors believed to have caused low achievement and the strategies and activities selected?

☐ Yes ☐ No

Will the selected strategies and activities likely improve student learning and achievement? [C]

☐ Yes ☐ No

Are the strategies and activities measurable? [C]

☐ Yes ☐ No

Are the measures of progress for the strategies and activities clearly identified? [C]

☐ Yes ☐ No

Are expectations for classroom behavior and practice related to the objectives clear? [C]

☐ Yes ☐ No ☐ N/A

Is professional development aligned with the strategies and activities for students? [C]

☐ Yes ☐ No ☐ N/A

Do the professional development strategies and activities directly address the factors that caused the school to be identified in status or in special education non-compliance?

☐ Yes ☐ No ☐ N/A

Do the parent involvement strategies clearly align with the strategies and activities for students? [C]

<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	Do these parent activities relate to the factors contributing to low achievement and will they engage parents in sharing responsibility for student learning?
<input type="checkbox"/> Yes <input type="checkbox"/> No	Are timelines reasonable and resources coordinated to achieve the objectives? [C]
MONITORING	
<input type="checkbox"/> Yes <input type="checkbox"/> No	Is it clear who will oversee progress of the objectives and take responsibility for ensuring implementation of the plan? [C]
<input type="checkbox"/> Yes <input type="checkbox"/> No	Will the collection of strategies and activities, along with the monitoring process, provide sufficient direction for plan implementers? [C]

PART I - COMMENTS

PART II - SECTIONS III and IV OF THE PLAN

PARENT NOTIFICATION

<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	Does this plan describe how the school has provided written notice about the school's academic status identification to parents of each student in a format and, to the extent practicable, in a language that parents can understand? (Title I Schools Only) [C]
---	---

STAKEHOLDER INVOLVEMENT

<input type="checkbox"/> Yes <input type="checkbox"/> No	Does the plan describe how stakeholders have been consulted? [C]
<input type="checkbox"/> Yes <input type="checkbox"/> No	Does the SIP team include a cross section of teachers, experts, parents, and other stakeholders to develop a plan on behalf of students that will best effect necessary changes? [C]

PEER REVIEW

☐ Yes ☐ No

Is the peer review process described and is there evidence that this plan has been subjected to rigorous review to ensure that it will have “the greatest likelihood” of ensuring that all groups will achieve AYP? [C]

TEACHER MENTORING PROCESS☐ Yes ☐ No

Is it clear how the school is ensuring that teachers are receiving the support needed for their professional growth and to retain them in the profession? [C]

DISTRICT RESPONSIBILITIES☐ Yes ☐ No

Is it clear what support the district will provide to ensure the success of the plan? [C]

☐ Yes ☐ No ☐ N/A

If applicable, is it clear what corrective actions or restructuring options the district is taking with this school? [C]

STATE RESPONSIBILITIES☐ Yes ☐ No

Does the plan indicate what support outside providers have given in developing the plan and what support, if any, is expected for its implementation? [C]

SCHOOL SUPPORT TEAM☐ Yes ☐ No ☐ N/A

Have the names and titles of School Support Team members been listed in the plan? Does the team appear to have the expertise to support this school in regards to the school improvement plan? [C]

APPROVAL DATE OF LOCAL BOARD☐ Yes ☐ No

The plan indicates the approval date of this plan. [C]

PART II - COMMENTS
