

Sixth Grade Math Words	
ratio	coefficient
unit rate	substitution
tape diagram	dependent variable
double number line	independent variable
diagram	nets
percent	median
greatest common	mode
factor	range
least common	mean
distributive property	dot plot
integer	histogram
positive number	box plot
negative number	interquartile range
opposite	mean absolute deviation
zero pair	inequality
absolute value	surface area
inequality	unit rate
exponents	rate
term	proportion
measurement conversion	simple interest
algorithm	tax
circumference	scale drawing
complementary angles	supplementary angles
adjacent angles	vertical angles
repeating decimal	terminating decimal
input	output
rotation	reflection
translation	congruent
similar	outlier

6th Grade ELA Words	
vague	implied
thesis	Greek/Latin affixes
significance	formal voice
rubric	figurative/connotative
relevant evidence	explicitly
primary/secondary sources	cues (non-linguistic/linguistic)
preliminary determination	credible
plagiarism	convey
perceive	conventions
nuances	coherent
multiple meaning words	cite
informational text	bibliographic
textual Support	bias
rising action	analysis
falling action	exposition
author's purpose	climax
resolution	

Seventh Grade Math Words	
markup	surface area
markdown	sample population
percent of increase	random sampling
percent of decrease	variability
gratuities	probability
commissions	frequency
percent error	simple event
additive inverse	compound events
multiplicative inverse	tree diagram
plane sections	simulation
rational number	principle
complex fraction	transformations
constant of proportionality	permutation
	slope

7th Grade ELA Words	
alternate	implement
audience	inconsistencies
categorize	influence
clarify	interact
complexity	literary
composition	manipulate
conceptual/concept	mature
concise	medium
connotation/denotation	mood (all ELA meanings)
correspond	relevant
embellish	segment
explanatory	structure
explicit	synthesize
exposure	technical
figurative	tone
format	unique
function	valid

Eighth Grade Math Words	
irrational number	congruent
integer exponent	dilation
square root	similar figures
cube root	transversal
radical	corresponding angles
scientific notation	interior
y-intercept	exterior
slope-intercept form	cone volume formula
linear equation	cylinder volume
like terms	sphere volume
simultaneous linear	scatter plot
function	positive association
non-linear functions	negative association
rate of change	line of best fit
perfect Cube	bivariate
perfect Square	measurement data
distributive Property	pre-Image
inverse operations	image
solution	parallel
domain	substitution
legs of a triangle	elimination
hypotenuse	clustering
Pythagorean Theorem	

8th Grade ELA Words	
allusions	inference
analogy	irony
argumentative	literal/figurative
bias	memoir
characterization	relevant/irrelevant
citation	stereotype
claim	style
connotation/denotation	support
explanatory/information	symbolism
expository	transition words
generalize	satire
imagery/sensory	textual evidence
	works cited
